RE: RESCHEDULING OF KING STREET MILLING AND PAVING

The milling and paving of Lower King Street between Market Street and Broad Street has now been rescheduled to occur at night between 7pm and 6am on Sunday, October 18th - October 22nd and Sunday, October 25th - 29th.

This work will require closing King Street between Market and Broad to vehicles during these times and dates, and detour signs should be followed in order to reach destinations in that area. However, King Street will be open during the day between 6am-7pm.

No on-street parking will be permitted between 6pm-7am anywhere on King Street between Market and Broad on Oct. 18-22 and Oct. 25-29. Vehicles parked in this area during this time will be towed at the owner's expense.

Residents, guests, customers and clients of stores and businesses are invited to park at no charge between 6 pm and 7am in the City's 93 Queen Street Garage on the west side of King Street until the project is complete on the morning of October 16th. (*The Charleston County King/Queen Garage on the east side of King Street will charge for parking.*)
